

Service Price List 2012

Prices reflect total bill for service (preoperative testing, anesthesia, dispensed meds, etc.). Professional service fees are expected to be paid at the time services are rendered. Payment options include Visa/Mastercard/Discover, Cash, Certified Check or Care Credit. If you would like to incorporate our services into your total treatment plan, direct hospital billing is available. Price list available online by registering at www.advancedveterinarcare.net.

Overnight Hospital Care (Attended care with LVT)-----

Regenerative Therapy

Treatment Procedures

- Stem Cell Therapy -----
- Platelet Rich Plasma Therapy -----

Surgical Services

(Please Call if You Do Not See a Procedure Listed You Require)

All surgery prices include pre-operative testing appropriate for the procedure to ensure safety on the day of the procedure (chest rads, ECG, blood gases, coag). If test results cancel surgery and no additional services are performed a \$100 fee will apply to cover pre-operative expenses.

- Cranial Cruciate Ligament Repair
 - Lateral Fabellar Suture-----
 - Tightrope CCL-----
 - Triple Tibial Osteotomy-----
- Fracture Repair
 - Avulsion Fracture-----
 - Feline Limb-----
 - Canine Limb (≤10 kg)-----
 - Canine Limb (11-25 kg)-----
 - Canine Limb (>25 kg)-----
- Patellar Luxation Repair-----
- Femoral Head and Neck Ostectomy
 - Feline-----
 - Canine-----
- Humeral Condylar Fracture-----

Orthopedic Surgeries, con't

Hardware Removal

Plate Removal-----

Pin Removal-----

Screw/Wire Removal-----

Amputation

Forelimb-----

Hindlimb-----

Digit-----

Tail-----

Joint Arthrodesis

Carpus-----

Hock-----

Bone Biopsy-----

Bone Marrow Aspirate-----

Infraspinatus Muscle Contracture Release-----

Joint Tap with Cytology-----

Add Culture and Sensitivity-----

Mandibular Fracture Repair

-Feline/Small Dog-----

-Large Dog-----

OCD of Shoulder-----

Ununited Anconeal Process Removal-----

Fragmented Medial Coronoid Process Removal-----

Soft Tissue Procedures

General Surgeries

Abdominal Exploratory Laparotomy-----

CO₂ Laser Mass Ablation, Skin-----

Additional, each-----

Mass Removal - External

<4 cm-----

4-8 cm-----

>8 cm-----

(Distal extremity masses often bump to next size due to special closure techniques)

Liver Lobectomy-----

Splenectomy-----

Adrenalectomy-----

Anal Saculectomy-----

Biopsy Procedures

- Bone Biopsy with Histopathology-----

- Bone Marrow Aspirate with Cytology-----

- Soft Tissue Biopsy with Histopathology-----

General Surgeries, con't

- Caesarian Section-----
- Pyometra Removal-----
- Facial Fold Excision-----
- Salivary Mucocoele/Ranula Repair-----
- Tail Fold Excision-----
- Insulinoma Removal-----
- Hernia Repair
 - Diaphragmatic-----
 - Pericardial-Diaphragmatic-----
 - Inguinal, Unilateral-----
 - Bilateral-----
 - Perineal, Unilateral-----
 - Bilateral-----
- CO₂ Laser Ablation Adrenalectomy-Ferret-----
- CO₂ Laser Ablation Insulinoma Removal-Ferret-----
- Thyroidectomy/Parathyroidectomy
 - Canine-----
 - Feline-----

Cardiology

- Electrocardiography with Specialist Interpretation (Routine Consult - 24 Hour Turnaround)-----
- Stat ECG Consult (Stat consult within 1 hour)-----
- Pericardiocentesis (Ultrasound Guided)-----
- (Does not include Echocardiogram)
- Patent Ductus Arteriosus Ligation-----
- Persistent Right Aortic Arch Ligation-----

Ear Surgeries

- Auricular Tumor Removal- Horizontal or Vertical Canal-----
- Pinna Ablation-----
- Total Ear Canal Ablation +/- Bulla Osteotomy
 - Unilateral-----

- Gastrotomy-----
- Enterotomy-----
- Intestinal Resection and Anastomosis-----
- Gastropexy, Prophylactic-----
- Gall Bladder Surgery-----
- Pyloric Stenosis/Mucosal Hypertrophy Repair-----
- Rectal Neoplasia Removal-----
- Subtotal Colectomy-----
- Gastric/PEG Feeding Tube-----
- Jejunal Feeding Tube-----
- Thoracotomy w/Mass or Esophageal FB Removal-----

Ocular Procedures

- Enucleation-----
- Prolapsed Tarsal Gland Pexy (Cherry Eye Tacking)
 - Unilateral-----
 - Bilateral-----
- Ectropion, Bilateral-----
- Entropion, Bilateral-----
- Grid Keratotomy-----
- Dystichiasis (CO₂ Laser Ablation)-----

Renal System Procedures

- Bladder Mass Resection-----
- Cystotomy-----
- Ectopic Ureter
 - Unilateral-----
 - Bilateral-----
- Nephrectomy-----
- Perineal Urethrostomy (Feline)-----
- Urethrostomy/Urethrotomy (Canine)-----
- Urethral Prolapse Repair-----

Respiratory Procedures

- Laryngeal Tie Back (LarPar)-----
- Bronchoalveolar Lavage with Cytology and Culture/Sensitivity-----
- Transtracheal Wash with Cytology and Culture/Sensitivity-----
- Lung Lobectomy-----
- Nasal Oxygen Tube-----
- Rhinotomy-----
- Soft Palate Resection (CO₂ Laser)-----
- Stenotic Nares (CO₂ Laser)-----
- Thoracic Exploratory-----
- Thoracic Mass Removal-----
- Thoracocentesis with Cytology and Culture/Sensitivity-----
- Tracheal Mass Removal and Anastomosis (Extrathoracic)-----
- Collapsing Trachea Repair/Stenting (Extrathoracic)-----
- Tracheostomy (ExtraThoracic)-----

CO₂ Laser Surgery for Routine Procedures

- Canine OHE-----
- Feline OHE-----
- Canine OE-----
- Cryptorchid-----
- Feline OE-----
- Cryptorchid-----
- Feline Declaw (2 paw)-----
- Feline Declaw (4 paw)-----

Diagnostic Imaging Services

Ultrasound Services

- Abdominal or Thoracic (excluding Echo)-----
- Single Cavity Ultrasound with Guided Fine Needle Aspirate or Biopsy-----
(Includes cytology or histopathology results)
